Delhi, India

mukuly2002@gmail.com ◇ linkedin.com/in/mukul-yadav-b81076299 ◇ github.com/mukul-yadav123

OBJECTIVE

Full Stack Gen AI Developer with 2+ years of experience building scalable MERN stack applications, AI-powered workflows, and real-time platforms. Experienced in Node.js, React.js, Next.js, MongoDB, PostgreSQL, Prisma, OpenAI integrations and backend architecture. Strong background in developing production-ready applications, real-time systems and AI-powered automation solutions.

EDUCATION

B.Tech in Computer Science & Engineering , Galgotias University CGPA: 9.3/10	2020 – 2024
Class XII , Evergreen Public School, Vasundhara Enclave Percentage: 93.8%	2020
Class X , Evergreen Public School, Vasundhara Enclave Percentage: 90%	2018

SKILLS

Languages	JavaScript, TypeScript, SQL
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, WebSockets, Socket.IO
Database	MongoDB, PostgreSQL, Prisma, Mongoose, Firebase
Gen AI	OpenAI APIs, AI Agents, LangGraph, MCP, RAG, Vector Search
Cloud / Tools	Git, GitHub, Postman, Docker, AWS, DigitalOcean, Linux
Other	Authentication, Payment Integrations, Real-time Systems, System Design

EXPERIENCE

Senior Full Stack Gen AI Developer Uphead Management Consultancy	2024 – Present <i>Delhi, India</i>
- Built and maintained scalable full-stack web applications using MERN stack and modern backend architecture. - Developed AI-powered workflows and intelligent automation using OpenAI APIs, LangGraph and MCP integrations. - Designed secure backend systems using Node.js, Express.js, MongoDB and PostgreSQL. - Built reusable React.js and Next.js based dashboards and admin panels. - Implemented authentication, real-time communication and API integrations for production systems. - Worked across architecture, development, deployment and feature releases for client products.	

PROJECTS

ScoreNow – Live Cricket Scoring Platform

Built a real-time cricket scoring platform similar to CricHeroes where users can create cricket matches, manage teams and update runs, wickets, overs and scorecards live. Developed the complete backend using Node.js, Express.js and MongoDB along with a React.js admin panel. Integrated YouTube live streaming on platform channel, user YouTube channels and Facebook Live. Added umpire roles, tournament management and real-time score synchronization. Successfully deployed and live on Google Play Store.

Mill Mitra – Flour Mill ERP Platform

Built a complete ERP platform for wheat flour mills managing procurement, purchase, production, inventory, warehouse and sales operations. Developed backend APIs and business workflows using Node.js and MongoDB. Built admin panel for end-to-end operations and reporting. Enabled real-time operational management for mill businesses.

Gen AI Automation & Agent Systems

Built GenAI-based automation systems using OpenAI APIs, AI agents, LangGraph and MCP tools. Created AI workflows for conversational automation, task execution and business productivity features integrated with modern web applications.

ACHIEVEMENTS

- Graduated B.Tech Computer Science with 9.3 CGPA from Galgotias University.
- Built and shipped production applications actively used on mobile and web.
- Hands-on experience building real-world AI products using OpenAI and agent-based systems.
